

Website & Online Booking *Platform*

A premium digital home for a premium salon — custom-designed and hand-built around the Eternal brand.

PROJECT VALUE & SCOPE OVERVIEW

01 The Vision

Eternal isn't a walk-in corner shop — it is a premium unisex salon with bridal artistry, keratin chairs, and a brand worth showing off. This platform is built to match that standard: a lavish, fast, mobile-first experience that turns a first-time visitor into a booked appointment in under 60 seconds, and makes the brand feel as expensive online as it does in the chair.

This is not a template. Every page, animation, and feature was custom-designed and hand-built around the Eternal brand — the royal purple, the gold, and the “ə” infinity mark.

02 What This Platform Does For The Business

BUSINESS GOAL	HOW THE PLATFORM DELIVERS IT
Win customers from Google & Instagram	Built for local search — “salon in Nigdi”, “bridal makeup Pradhikaran” — with live Google reviews and map built in.
Never miss a booking	Customers book online 24×7; the salon receives an instant WhatsApp alert for every appointment.
Look premium, build trust	Editorial design, real photographs, and a live 4.6★ Google rating on display.
